

# The FLUTE TRENDS App

Improve your flute playing

**Music - Exercises - Audio - Video - Tipps - CDs**  
For professionals, students and flute lovers.

**With the FLUTE TRENDS App, a dream comes true!**

Since I've been writing music, I've always wanted it to be accessible to any interested flute player on any device such as a mobile phone, tablet or on your PC, MAC or laptop around the world.

With this App it is now possible to use my music anywhere. You can get the **score** and **audio samples** showing how to play certain sections.

.... and with the **videos** you get **tutorials** which you can learn difficult parts or pieces that are not yet written. For example the piece "**Shakuhachi**" for flute solo, inspired by the wonderful Japanese wooden flute.

Besides all these possibilities you can also buy my **CDs** in this way. You simply buy the pieces you like in mp3 and CD quality.

And if there are **news, new music, new exercises, new CDs, new videos, a new article, news about low flutes, flutes & electronics, loops**, you will be informed by a push message. So you always stay up to date!

(Of course you can unsubscribe at any time!)

.... and everything for little money, and in professional quality!

You can also print the downloaded music.

**- Thank you very much for using the downloaded pdf sheet music only for yourself -**

## Important

You **won't** find the App in Google Play or the App Store, it's much easier. Click on the link below, try the app and install it later, if you like it.

[flutetrends.app](http://flutetrends.app)

Alternatively, you can also enter this address manually in **any** mobile or Desktop - Browser and use the App immediately online.

## Feedback

Thank you for your feedback on the App.  
This helps me a lot, so that everything works perfectly.
